ABOUT OUR COMPANY

Trade-magnet.com, a leading FinTech corporation serving millions of people across the world was founded in 2016 with the mission to harness technology to provide unprecedented financial freedom, economic opportunity, and income equality for the 99%. For too long, big banks and financial institutions have gotten away with greedy, unethical, and risky behavior. It's time to replace our current financial systems with a new model that only ever acts in the best interest of the community. trade-magnet.com is the largest full-service blockchain technology company in the world. We develop and deliver cutting-edge software and hardware solutions necessary for businesses, governments, organizations and individuals to securely move assets across the blockchain.

We aim to provide expert advice and quality investment ideas.

In our bid to make the most of your money, you can choose between our services spanning from trading in the stock market to investing in natural resources such as oil and gas alongside getting crisp opportunities in Real Estate as a whole

trade-magnet.com was built to help you be a more confident investor and set you on the path to secure your financial future, we help our customers maximize their money, whether you are investing or a seasoned pro, trade-magnet.com does what is right for you and your money.

MINING

WHAT'S THE INCENTIVE FOR MINERS?

It all comes down to trust: Miners keep the blockchains trustworthy and are rewarded for their efforts. As miners, we are processing and verifying the transactions of the cryptocurrency ecosystems and keeping their public transaction history (Blockchains) maintained and secure. For this, the mining community is rewarded with the networks' transaction fees and newly created coins. It's a win-win situation! When you start mining with us, you are getting your share of this reward.

HOW IS BITCOIN KEPT SECURE?

The only way to not create money out of thin air or corrupt it, is to burn real energy. This is called Proof-Of-Work. Today, bitcoin is the most secure computer network on the planet and it's practically impossible to break it! The reason for that is hash power, the umbrella term used for the computing power that miners provide to the bitcoin network and similar cryptocurrency networks. Due to the rapid growth of the ecosystem, mining operations today are mostly running with specialized high-performance computers that function most efficiently set up in large data centers.
